

HOIST OPERATOR CERTIFICATION TRAINING

BECOME A CERTIFIED HOIST OPERATOR IN 4 DAYS!

QUICK STATS

We offer courses at our Abbotsford training center and we can also provide training on your hoist anywhere in Canada.

Construction Hoist Operator Courses are scheduled on demand to better accommodate your availability.

Courses run for 3 consecutive days from 7:30am to 3:00pm with a 30 minute lunch break. Roughly 50% of class time is spend outside.

Students are required to bring a hard hat, safety vest, steel toe boots and weather-appropriate clothing for outdoor days.

Upon successful completion of the course, students will receive the Affidavit required by Technical Safety BC to write the Operator Certification Exam.

To register please call (604) 626-2568 or e-mail RNothis@bigfootcrane.com

Prepayment is required to secure a seat in course. We accept checks, cash and credit card payments.

Bigfoot must receive notice of cancellation 3 business days prior to the course date for a student refund to be issued.

THE COURSE

Personnel Hoist & Construction Elevator Operator Certification Training

COURSE OUTLINE

Graduates of this program will be able to:

- Demonstrate a good understanding of the regulations that apply to the safe use of hoists.
- Carry out a full pre-start/shift inspection of the hoist and record their findings.
- Carry out a full operational inspection of the hoist and record their findings.
- Operate the hoist in line with the manufacturer operators' instructions/manual.
- Load the hoist with passengers/goods as per manufacturer's instructions.
- Deliver passengers/goods safely and efficiently.
- Stop the hoist at the correct levels.
- Correct use of safety gates.
- Carry out an emergency lowering task (if company policy allows)
- Keep within safe working parameters of the hoist.
- Place the hoist in an out-of-service condition, isolate and secure.
- Understand the limitations of use while operating the hoist.
- Report any problems or defects.

CERTIFICATION:

- At the end of the hoist operator training course the candidate should be able to achieve the required standards of the Technical Safety BC theory exam.
- Upon successfully completing the Elevating Devices Operator Exam the candidate will receive an Elevating Devices Operator Certification Card.
- Booking the exam and related fees are the candidate's responsibility.
